Estimated cost for a plow and sander is \$10,000. He suggested we finance \$20,000 for the truck, plow and sander. Ed recommended that the plow be used in SG and Joe T., who would be the designated driver, and could park the truck on his property. There was debate whether to buy a used truck, buy a grader instead, or do nothing. Road committee will come up with a detailed plan to present to the board.

Winter Preparations: Snow fencing was discussed and recommended that landowners were the best source to advise the committee on where snow fencing was needed.  
Action item – Ed to hire someone to put up snow fencing and posts.
